

Limitation for B2 category applicable for conversion after 2012-08-01

Module code	None compliance with the Appendix I of Part 66	Limitation for large aircraft	Implications for large aircraft
Limitations when the person has technical education			
1	None	None	None
2	None	None	None
3	None	None	None
4	None	None	None
5	All	Excluding avionic systems	No privileges to certify maintenance task on avionic systems
6	None	None	None
7A	7.7	Excluding electrical systems*	No privileges to certify maintenance task on electrical systems*
8	None	None	None
9A	All	None	None
10	All	Excluding working independently	No privileges to certify maintenance tasks independently
13	13.5	Excluding DC systems	No privileges to certify maintenance tasks on DC systems
	13.8	Excluding Glass cockpit systems	No privileges to certify maintenance tasks on glass cockpit systems
	13.3	Excluding Stability Augmentation System (Helicopters only);	No privileges to certify maintenance tasks on stability augmentation systems (Helicopters only)
	13.10	Excluding on board maintenance systems	No privileges to certify maintenance tasks on board maintenance systems
	13.11, 13.12, 13.13, 13.14, 13.15, 13.16, 13.17, 13.18, 13.19	Excluding mechanical systems	No privileges to certify maintenance tasks on mechanical systems
	13.20	Excluding integrated modular avionics	No privileges to certify maintenance tasks on modular avionics
	13.21	Excluding cabin systems	No privileges to certify maintenance tasks on cabin systems
13.22	Excluding information systems	No privileges to certify maintenance tasks on information systems	
14	14.3	Excluding starting and ignition systems	No privileges to certify maintenance tasks on starting and ignition systems

Limitation for other than large aircraft	Implications for other than large aircraft
Limitations when the person has technical education	
None	None
None	None
None	None
None	None
Excluding avionic systems	No privileges to certify maintenance task on avionic systems on the other than large aircraft
None	None
Excluding electrical systems*	No privileges to certify maintenance task on electrical systems *
None	None
Excluding commercial air transport	No privileges to certify maintenance task on the other than large aircraft used in the commercial air transport
Excluding commercial air transport	No privileges to certify maintenance task on the other than large aircraft used in the commercial air transport
Excluding DC systems	No privileges to certify maintenance task on DC systems on the other than large aircraft
Excluding Glass cockpit systems	No privileges to certify maintenance task on glass cockpit systems on the other than large aircraft
None	None
None	None
Excluding mechanical systems	No privileges to certify maintenance task on mechanical systems on the other than large aircraft
None	None
None	None
None	None
Excluding starting and ignition systems	No privileges to certify maintenance tasks on starting and ignition systems

Requirements for removal of limitation
Limitations when the person has technical education
None
None

Examination on module 5
None
Examination on module 7A
None
Examination on module 9 or human factor training
Examination on module 10
Examination on module 13
Examination on module 14

Limitations can be used when the person has or has not technical education			
N/A	N/A	N/A	N/A
N/A	N/A	N/A	N/A
N/A	N/A	N/A	N/A
N/A	N/A	Developed individual limitations	No privileges to certify maintenance task on systems, components, powerplant, structure or other aircraft elements as identified in the license.
N/A	N/A	N/A	N/A

Individual limitations /
individuelle apbobjimai

Limitations can be used when the person has or has not technical education	
Excluding commercial air transport	No privileges to certify maintenance task on the other than large aircraft used in the commercial air transport
Excluding all other aircrafts	No privileges to amend additional aircraft types and any additional category or subcategory for existing aircraft types
Excluding large aircraft	No privileges to certify maintenance tasks on large aircraft
Developed individual limitations	No privileges to certify maintenance task on systems, components, powerplant, structure or other aircraft elements as identified in the license.
Excluding large aircraft	No privileges to certify maintenance tasks on large aircraft

Generic limitations (According 66.A.70(d) / Bendinai apbobjimai
page (66.A.70(d))

Individual limitations /
individuelle apbobjimai

Refer to PR-AIR-09
procedure 2.13.2

Limitations can be used when the person has or has not technical education
Based on examinations on modules from individual conversion reports
Based on examinations on modules from individual conversion reports
Based on examinations on modules from individual conversion reports
Based on examinations on information from individual conversion reports
Based on examinations on M13 module

* - This limitations are not transferred to B2 converted actual licenses as described in conversion reports PR-AIR-009 2.1.42 procedure, but this exceptions are not transferred to additional category or subcategory, and there for the missing knowledge should be demonstrated
